

ZEROGRAVITY™

Innovative Mopping System

Lightweight yet sturdy, designed for all surfaces

The ZeroGravity™ mopping system by Contec Professional is a unique concept in cleaning. The incredibly lightweight hardware and frame, combined with the Premira® Disposable Microfiber Mop Pad, offer an ergonomically friendly alternative to traditional mops. The blue mop frame is 100% recyclable polypropylene and features a low profile. This makes cleaning under objects, furniture and equipment easier than ever.

The nonferrous aluminum handles come in a variety of lengths and are easy to interchange as needed. They are strong and durable yet light enough to reduce the strain on operators that traditional mops can cause. The ZeroGravity® mopping system is the ideal core tool for any cleaning organization, providing outstanding results and exceptional value.

FEATURES

- Innovative curved mop frame keeps the mop pad off the floor when it is in resting mode
- Flat profile provides most effective use of the entire Premira® Disposable Microfiber Mop Pad cleaning surface
- Nonferrous aluminum handles can be used in sensitive, magnetic areas

Contec part no.	description	size	packaging
PRMH8005	ZeroGravity™ Mop Frame, 17.5", blue	17.5" (44.5cm)	6 frames/case
PRMH8001	Handle, anodized aluminum, telescoping	56" (142cm), extends to 100" (254cm)	1 handle/case
PRMH8002	Handle, anodized aluminum	64" (162.5cm)	1 handle/case
PRMH8003	Handle, anodized aluminum	20" (50cm)	1 handle/case
PRMH8004	Handle, anodized aluminum, telescoping	36" (91cm), extends to 64" (163cm)	1 handle/case

CURVED FRAME FACE FOR EVEN PRESSURE

Less strain and effort involved

The curved, blue polypropylene mop frame of the ZeroGravity™ mopping system is flexible enough to flatten completely when normal cleaning pressure is applied. This allows the entire cleaning surface of the Premira® Disposable Microfiber Mop Pad to be used, instead of just certain spots or areas. The ZeroGravity™ mopping system is engineered to help cleaning teams and EVS staff able to work more quickly, consistently and effectively.
