Disposable String Mop

Absorbs Large Volume Spills Quickly and Easily

This rayon/polyester blend disposable grossing mop from Contec Professional is designed to speed up turnover time in facilities, while helping to reduce cross-contamination. The Disposable String Mop is made from 98% post-industrial recycled materials. Not only does the mop hold as much liquid as comparable products, but with a 35% faster absorption rate. The single-use design eliminates the redistribution of contaminated mop water from room to room. Use *Laundry-Free*™ Premira® II Microfiber Pads afterwards to help disinfect, deep clean, and maintain floors.

Disposable String Mop Comparison				
Comparable Products	Absorbtion Rate (sec)	Dry Weight (g)	Wet Weight (g)	Sorbency (g)
Contec	**47**	**178**	**1,632**	**1,454 (51.3 oz)**
Competitor 1	55	230	1,652	1,422 (50.2 oz)
Competitor 2	54	254	1,650	1,396 (49.2 oz)
Competitor 3	62	252	1,704	1,452 (51.2 oz)
Competitor 4	70	194	1,706	1,512 (53.3 oz)
Competitor 5	79	226	1,848	1,622 (57.2 oz)
Competitor 6	90	170	1,312	1,142 (40.3 oz)

FEATURES

- Quick absorption for a faster room turnover.
- Made from 98% post-industrial recycled materials.
- Helps reduce cross-contamination— just dispose the dirty mop after use
- Ideal for ORs, high irrigation cases, Labor & Delivery, and other high volume spill areas.
- Follow up with *Laundry-Free*™ Premira® II Microfiber Pads for deep cleaning and maintenance.

ZeroGravity™ QuickChange Claw Mop Connector

Get a grip on cleaning

The ZeroGravity™ QuickChange claw connector by Contec Professional securely grips the disposable string mop to ensure easy use. The serrated edges can be tightened and loosened as needed. When finished with the grossing mop, simply replace the claw connector on the mop handle with any of the other connectors for use with the *Laundry-Free*™ Premira® Microfiber products. The ZeroGravity™ QuickChange mopping system allows users to customize mop hardware to fit their needs without the hassle of added storage.
