

Laundry-Free™ Premira® II Microfiber High Duster Covers

Disposable covers for high cleaning applications

Laundry-Free™ Premira® II Microfiber High Duster Covers reduce fiber shedding and are effective for dry or damp dusting hard-to-reach areas. The microfiber fabric offers excellent pickup power and is compliant with most cleaning protocols. The covers are available in two sizes to work with Contec Professional's High Duster XF and the Standard High Duster tools. *US Patent Nos. 8,809,213; D67,513; 9,693,668; and 10,010,233.*

FEATURES

- Laundry-Free™ Premira® II microfiber picks up and holds on to debris rather than spreading it around
- Disposable, more appropriate for clinical environments than standard duster wands
- Can be used wet or dry for any dusting applications
